MONEY, STOCKS AND GRAIN

New Week Begins with the Same Listless Duliness on New York 'Change.

The Entire List of Shares Retired Sluggishly Below First Prices - At Indianarolis Wheat Was Weak and torn Quiet.

THE BOND MARKET.

Ballroad Issues Quiet, but Renewed Inquiry for Reading Was Noted.

At New York, yesterday, money on call was easy at 24 @3 per cent., the last loan being made at 1@14, closing offered at 14 per cent.

Prime mercantile paper, 34 @5 per cent. Sterling exchange was quiet and easier at \$4.87 for sixty-day vills and \$4.884 for demand.

Sales were 128,862 shares, including the following: Atchison, 7,255; Chicago Gas, 4,660; Louisville & Nashville, 15,55; North Pacific preferred, 4,655; New England, 7,010; Resding, 5,900; Richmond & West Point, 6,500; St. Paul, 28,915; Union Pacific, 12,510.

The stock market seems still unable to escape from its dull and listless condition and yesterday saw the same insignificant trading, while the fluctuations in the general list were even of less importance than those of last week. Sales for foreign ac-count were the principal feature in the margin of prices, but while these were prominent only in Louisville & Nashville, St. l'aul and one or two other stocks, they in the absence of any particular demand served to give the whole list a heavy to weak temper despite the favorable nature of the government crop report. This latter influence, however, seemed to have been fully discounted and no more than served to cheeck the declining tendency inaugurated by the sales for foreign account. The indisposition to trade was never more marked, and apart from the few leaders the whole market remained oppressively duil and without character throughout the entire session, though sympathy with the active shares caused a heavy temper and drooping quotations in the forenoon. Louisville & Nashville was the weak point in the list. the pressure upon it being most severe in the early dealings, and at its lowest point it showed a loss of 1% per cent. from its Rinal figures of Saturday. How much of the selling was really for foreign account is a matter of conjecture, but there was a notable absence of support, and its price yielded readily for some time. On the other hand, Burlington was inclined to respond to the improved prospects of the corn crop as indicated by the government report and a fractional advance in the face of the general weakness resulted in the early dealings, but this gain could not be maintained, but with the rest of the list retired below the level of the first price. St. Paul displayed some animation, but the only other feature was the weakness of Louisville & Nashville, and later in Union Pacific, followed by special movements in Cordage and the Susquebanna & Western stock, the last two being advanced 2 and 4 per cent., respectively without opposition. The market finally closed dull and barely steady after one of The trading only reached 124,406 listed and 1.450 unlisted

Railroad bonds were very quiet in the main, but there was renewed inquiry for the Reading issues, and all the junior issues were largely traded in at advancing Prices. The gains were not of special importance except in a few of the inactive bonds. The market displayed no pronounced feature, and the tendency was rather in the upward direction, no sympathy being shown with the decline in to 109%, but San Francisco sixes lost 2, at 107. Other changes were generally insig-

Government bonds were dull but firm. State bonds were dull and steady. Closing Four per cent. reg.11612 Louis. & Nash..... 70

STILL HEADING DOWNWARD

Not Only Wheat, But Corn and Oats Declined on the New Crop Report.

On the Other Hand Provisions Acquired Strength Yesterday, Pres of Hogs at the Yards Being Fe. terand Good Demand.

TRADING AT CHICAGO.

Some Evidence Going to Show a New Clique Manipulating Pork,

CHICAGO, July 11 .- The government reports showing the condition of the crop rather better than expected exerted a depressing effect to-day upon all cereals. The condition of corn and oats was especially better than the trade was looking for, and this fact, taken in connection with the other bearish factors, which include the anti-option bill, the labor trouble, the cholera in Europe, the silver bill, with the June weather, the weak cables and the general stagnation in speculation, led to much depression. Long property came out freely, stop-loss orders became operative, and there was more or less selling for the short account. The buying was slower, cautious and confined largely to shorts who had a good profit in former sales and were disposed to secure it. Provisions were the only bull card, and they were not only sustained but aggressively advanced, pork gaining 20c; lard, .0712c, and ribs, .05c Wheat, corn and oats opened weak and, although at some recovery from their lowest depths, were still under Saturday's closing quotations when trading ceased today. Wheat is 4c lower; corn 4c, and oats 1'sc decline. Wheat was moderately active. The opening was about 1800 40 lower, and prices further declined 4c, then rallied 4c, and ruled steady to the close. The movement of new wheat is just starting in, and operators rather inclined to await developments. The big decrease in the visible supply was a surprise to the trade, and caused the rally in prices. The recovery was helped by indications of weather. A noteworthy feature wa that July maintained a premium of from %c to 10 over September. The extreme break in the price of Sep-

tember corn from the close Saturday to the low point to-day was 14c. The receipts were away over the estimate at 340 cars and the grading was the best of the year, With 106 cars of No. 2 core on the tracks. The local stocks were increased 375,000 bu, making corn of all kinds in Chicago 4,000,-000 bu. With the aid of the bear news the trade readily forced the Bloom corn on the market, but it was less than half a million bushels and much less than expected. After the visible showed a decrease of 162,000 bu and the estimate for two days was given at 550 cars there was better sup-port. The late cable quoted July corn 2d up at Liverpool. Oats were active, weaker and lower. There was large selling by longs most of

the day. There was also considerable un-

loading of July and buying of September.

July started at 'se premium, but later sold at 'se discount. The provision trade got brought up with a round turn again to-day. From a decline of 10c at the opening, pork advanced to 25c over the closing price on Saturday and retained the most of the advance to the end. There was not as much change in lard or ribs, the speculative activity finding its fullest expansion in the article of barreled pork. J. G. Steever ascribed the day's advance to increasing apprehensions regarding the probable reserve of hogs which he says are not what has been heretofore supposed or present prices at yards would bring them out in much heavier droves. "Be that as it may," said an oper-ator, "if Tom Bennett did not have from some one what appeared to be an unlimited buying order for pork there would have been no such advance in it to-day." Trade was only moderate until about half an hour from the close, when the bull tactics

Freights were steady, with a liberal inquiry at 2e for wheat and 13 c for corn to Buffalo. Estimated receipts for to-morrow are: Wheat, 205 cars; corn, 550 cars; oats, 650 cars; hogs, 18,000. The leading futures ranged as follows:

ket to the Cudaby interest.

referred to were in action. The trade gen-

erally credit the effort to control the mar-

-THE-

DAILY, SUNDAY AND WEEKLY.

The Journal is first of all a newspaper. Its primary object is to publish the news, and to secure this it spares no pains or expense. Besides the service of two great news agencies, which cover foreign countries as well as the entire United States, it has a corps of Special Correspondents, who give attention to those events and occurrences that are likely to be of particular interest to the Indiana public. Its Washington bureau was established for the purpose of looking after matters in which the State and its people are concerned, and is under the management of an Indiana man well acquainted with the local business and political issues. It has a correspondent in every town of importance in the State, and is constantly increasing its facilities for obtaining information from every quarter. Its staff of city reporters is large, and its local departments are unexcelled. As a news paper it is far better equipped than any other in the State, and welcomes comparison with its contemporaries in any and all of its departments. With all it endeavors to be accurate and trustworthy, printing the news, whatever it may be, without personal or partisan

But while the Journal is non-partisan as to news, it is a Republican paper, and sets forth Republican principles. It is important that the people shall read the truth about these principles, and it was with the object of putting everybody in the way of doing so that the price of the

- Was reduced to -

No other method of securing a Republican victory at the polls is so certain as the circulation of Republican papers among voters. Since the reduction in the price thousands of subscriptions have poured in from all parts of the State, showing that a need was supplied. In order to have the proper influence and effect upon voters seeking for trustworthy information the Journal should go into their hands at once, and not next spring or summer. Clubs are being formed and agencies established wherever daily mails reach, and as rapidly as traveling agents can visit the places, but Republicans in each and every locality cannot do their party greater service than to interest themselves in

The Sunday Journal

circulating the Journal.

Is a paper that gives more attention to miscellaneous literature than the other editions, and contains in its sixteen, and often twenty, pages a variety of

CHOICE READING MATTER

That satisfies the most exacting taste.

The same reasons that call for the im mediate extension of the the daily circulation apply to the weekly. This is carefully edited, with a special view to the wants of Indiana readers, both in its general and political news. Its subscription price, \$1, with reduction to clubs, places it within the reach of all, and no campaign contribution can be so effective as when spent in furnishing this paper to readers who need Repub. lican doctrine.
